7. Project Documentation Phase

Technical documentation and submission packaging

Documentation Contents

- Project title and abstract.
- Problem statement and objectives.
- Features and scenarios.
- System architecture.
- Prerequisites and installation.
- Folder structure.
- Module descriptions.
- API endpoint list.
- Frontend description.
- Testing results and screenshots.
- Conclusion and future enhancements.

Installation Documentation

Document Python 3.10+, FastAPI, HTML/CSS, Google Gemini API key, Uvicorn and Jinja2. The API key should be stored securely and must not be committed to GitHub.

Repository Documentation

The public repository should contain the source code, requirements, README, phase-wise folders/PDFs and supporting project evidence.
